

# KIPP-Line cleaner

for Sports floors

- Type of product:** Solvent containing special cleaner for the activation of floors as linoleum, PUR, PVC, natural and synthetic rubbers etc. Achieves an excellent laminate quality for the coating.
- Fields of application:** It is absolutely essential for the preparation of the sports floors to be lined. Activates the areas to be coated before 2K-PUR marking colours are applied.
- Preparation of surface:** Soak a cloth with line cleaner and wipe over the lines already marked. After cleaning, the floor should be free of eventual residues (separating agents), application eventually to be repeated.  
**Attention!**  
On PVC- or PUR-coated floors, this special cleaner may only work a short duration, otherwise the surface will not adhere.
- Form of delivery:** ready for use
- Pack sizes:** 3 L
- Storage ability:** unlimited
- Ingredients:** N-Butylacetat 50-100 % + safe additives  
R1066-67
- Precautionary measures:** During application a constant fresh air supply must be maintained all the times.  
All precautionary information, warnings and safety measures can be found on the individual packs.  
All safety and accident prevention procedures as outlined in respective professional association guidelines are to be observed.

All instructions are the result of extensive experiences and scientific experiments. Because of the varied processing conditions, these instructions are non-committal.
