

KIPP - Maintenance Cleaner

For Sports Floors - Anti-skid according to DIN 18032 /Part 2

- Type of product:** Water-dilutable, wax-free maintenance agent concentrate with an excellent cleaning effect. Produces a durable anti-skid protective film. Fulfills the sports requirements according to DIN 18032 / Part 2.- For first and maintenance and cleaning of uncoated linoleum floors, PVC and various kinds of rubber surfaces. For the adjusting of the sliding friction coefficient of old floors.
- Fields of application:** For all sports floors including PVC, linoleum, polyurethane, synthethic-rubber, gum etc., especially for sports floors sealed with 2-K PUR-W.
- Application:** If extensive cleaning is necessary, a preliminary treatment with special basic cleaner (see data sheet) is recommended.
Maintenance cleaning:
Add approx. 40 – 200 ml sports floor-floor maintenance agent to 10 l water. Produces a light silky sheen with a soil-resistant and anti-skid effect.
First application and to increase the sliding friction coefficient:
Put approx. 200 – 500 ml – sports floor maintenance agent into 10 l water. Apply thinly with a damp wiper. Don't remove the remaining liquid!
Avoid puddling in order to prevent glossy areas!
- Consumption:** approx. 0,2 – 0,3 l / 100 m²
- Package sizes:** 10 l
- Ph-Value:** Concentrated approx. 9,0 in applicated concentration approx. 8
- Precautionary measures:** During application ensure a constant supply of fresh air at all times.
- Ingredients:** Content declaration according to the EU: not ionic tensides < 5%, High quality maintenance agents and cleaning components, solubilizer auxiliary products and scents.
